## PROFESSIONAL SUMMARY

---

Computer Engineer from Duoc UC with experience in web development, process automation and AI-powered digital solutions. Has built and deployed production solutions with React, Next.js, TypeScript and Node.js, including environmental calculators, AI chatbots, CRM integrations and payment gateways. Combines technical depth with a business mindset, continuous improvement and collaborative teamwork.

## TECHNICAL SKILLS

---

**Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI, Ant Design, Responsive Design

**Backend & APIs:** Node.js, PHP, Prisma, REST APIs, authentication, third-party service integration

**Databases:** SQL Server, MySQL, SQL queries, basic data modeling

**AI & Automation:** OpenAI API, Claude, Ollama, custom chatbots, workflow automation, content generation

**Tools:** Git, GitHub, Vercel, Docker, ApiDOG, Bitrix24, Mercado Pago, Power BI

**Methodologies:** Scrum, agile delivery, requirements analysis, technical documentation

## PROFESSIONAL EXPERIENCE

---

### Software Developer / Front-End Developer

June 2025 – Present

Vínculo Verde / Greensoft – Santiago, Chile

- Contributed to 6+ digital initiatives in the first year: production products, internal AI tools, CRM integrations and a payment gateway.
- Led the frontend of interactive environmental calculators (Carbon and EPR), deploying two to production with React, Next.js and TypeScript.
- Designed and built Orbix, an internal generative-AI assistant for drafting LinkedIn news posts integrated with Bitrix24 (CRM), and drove a WhatsApp chatbot with local AI (Ollama), coordinating the team.
- Contributed to EcoREP with a file manager and built a domain-sales platform with a database and payment-gateway integration (Mercado Pago).
- Integrated third-party services, managed deployments on Vercel and worked with Git and GitHub in an agile (Scrum) workflow.

### Professional Internship – Assurance

Oct 2024 – Nov 2024

PwC Chile – Santiago, Chile

- Took part in internal-process audits at insurance and banking firms, verifying traceability and compliance with procedures.
- Prepared supporting documentation and reports focused on control, risk management and process improvement.

## KEY PROJECTS

---

### Legal Chatbot with Backoffice (Capstone Project)

Designed and developed a chatbot to answer legal questions, with an admin backoffice to manage questions, answers and users. AI integration to improve interaction and support the assistance flow.

### Landing Pages – BaoBlue / Anrra (Freelance)

Custom websites for the commercial presentation of digital brands: responsive design, animations, reusable components, deployment on Vercel and a GitHub workflow.

## EDUCATION, CERTIFICATIONS & LANGUAGES

---

**Computer Engineering** – Duoc UC Professional Institute | Graduated 2025

**Certifications:** Scrum Foundation (2024) | TOEIC 805 pts

**Languages:** Spanish (native) | English (intermediate-advanced, TOEIC 805)
